

... *putting IT in Perspective.*

Project Name	COS
Description	ComplyAssistant Office Suite
Customer	ComplyAssistant LLC www.complyassistant.com
Size	10 Man-Years
Technology	Microsoft .Net, UIP Application Block, Security Application Block, Data Access Application Block, ASP.Net 2.0, Atlas-2, VB.Net, SQL Server 2005, MS BI Studio

ComplyAssistant is in the business of automating compliance management for HIPAA, Sarbanes-Oxley, Visa CISP, the Patriot Act, GLBA, OCC Regulations, the REALTOR Secure program, OSHA, and Patient Safety / Risk which includes surveys, questionnaires, issue management, incident recording, task management, risk assessment, mitigation planning, work plans, budgeting, trending snapshot graphs and reports.

COS Ver 1.0 has the following modules:

- Tasks
- Assessments
- Issue Incidents & Complaints
- Documentation
- Education
- Implementation
- Audit
- Risk Assessment
- Reports

COS uses pageflakes to provide users a dashboard as a single navigation point for the entire system. In order to do this Microsoft Atlas2/AJAX framework is used extensively.
